

TERMS OF USE

NOMOS Intelligence

Last updated: 11 August 2026

AGREEMENT TO OUR LEGAL TERMS

We are NOMOS Intelligence ("NOMOS," "we," "us," or "our"), a project currently operated by its founding team pending incorporation in Belgium.

We operate <https://nomos-intel.eu>, as well as any related websites, applications, products, and services that refer or link to these Terms of Use (collectively, the "Services").

You can contact us by email at contact@nomos-intel.eu.

Pre-incorporation notice: NOMOS Intelligence has not yet been incorporated as a Belgian company.

References to NOMOS in these Terms refer to the project as currently operated by its founding team.

The legal identification details of the incorporated entity will be added once incorporation is completed.

These Terms of Use constitute a legally binding agreement between you, whether personally or on behalf of an entity ("you"), and NOMOS Intelligence concerning your access to and use of the Services. By accessing or using the Services, you confirm that you have read, understood, and agreed to be bound by these Terms of Use. If you do not agree, you must not use the Services.

These Terms of Use govern access to and general use of the Services. They do not by themselves govern (i) commissioned or paid intelligence, research, consulting, or other professional services supplied to a client, or (ii) services performed for NOMOS by independent analysts, freelancers, contractors, or other service providers. Those relationships may be subject to separate agreements. If a separate written agreement conflicts with these Terms of Use, the separate agreement prevails for the subject matter it governs.

We may update these Terms of Use from time to time. The current version and its effective date will be made available through the Services. Where a change materially affects an ongoing contractual relationship, we will provide notice where required by applicable law or the relevant agreement. Continued use of the Services after an updated version becomes effective constitutes acceptance of the updated Terms to the extent permitted by law.

We recommend that you retain a copy of these Terms of Use for your records.

1. OUR SERVICES

The Services provide information about NOMOS and may provide access to research, intelligence-related content, platform functionality, communication tools, or other features made available by us from time to time.

The information made available through the Services is not intended for use in any jurisdiction where such use would be unlawful or would require us to satisfy a registration or licensing requirement that we have not undertaken. Users who access the Services from outside Belgium are responsible for complying with applicable local law.

Any specific paid research, intelligence, consulting, marketplace, or other professional service may be governed by an order, statement of work, client agreement, analyst agreement, or other separate terms.

2. INTELLECTUAL PROPERTY RIGHTS

Our intellectual property

Unless otherwise indicated, we are the owner or lawful licensee of intellectual property rights in the Services, including their software, databases, functionality, website design, text, graphics, branding, logos, and other material made available by us (collectively, the "Content" and the "Marks").

The Content and Marks are protected by applicable intellectual property and unfair competition laws and treaties.

Subject to these Terms, we grant you a limited, non-exclusive, non-transferable, revocable right to access and use the Services and to download or print Content that you are lawfully entitled to access, solely for your personal use or internal business purposes.

Except as expressly permitted by these Terms, a separate agreement, or applicable law, you may not copy, reproduce, aggregate, republish, upload, post, publicly display, encode, translate, transmit, distribute, sell, license, commercially exploit, or create derivative works from the Services, Content, or Marks without our prior written permission.

Nothing in these Terms transfers ownership of our intellectual property to you. We reserve all rights not expressly granted.

3. USER REPRESENTATIONS

By using the Services, you represent and warrant that:

- you have the legal capacity and authority to agree to these Terms, including authority to bind any entity on whose behalf you act;
- the information you provide to us is accurate and not knowingly misleading;
- you will not use the Services for any unlawful or unauthorized purpose;
- your use of the Services will comply with applicable law and with any contractual restrictions applicable to you; and
- you will not attempt to gain unauthorized access to accounts, systems, data, or restricted areas of the Services.

If information you provide is materially inaccurate, misleading, or incomplete, we may restrict or suspend access to the Services where reasonably necessary.

4. PROHIBITED ACTIVITIES

You may not access or use the Services for purposes inconsistent with their intended function or in a manner that violates applicable law. In particular, you agree not to:

- systematically extract, scrape, harvest, or reproduce Content or data from the Services in order to create a competing database, product, or service, except where permitted by applicable law or with our written authorization;
- circumvent or interfere with security, access-control, authentication, usage-limit, or rights-management features;
- attempt to obtain passwords, credentials, confidential information, or unauthorized access to another user's account or to our systems;
- upload, transmit, introduce, or distribute malware, malicious code, denial-of-service traffic, or other material intended to disrupt or damage the Services or another system;
- impersonate another person or entity, misrepresent your affiliation, or use false credentials;
- use the Services to harass, threaten, defame, unlawfully discriminate against, or unlawfully target another person;
- use information obtained through the Services for unlawful surveillance, stalking, doxxing, fraud, unauthorized intrusion, or other unlawful activity;
- infringe the intellectual property, privacy, confidentiality, data-protection, or other rights of NOMOS or any third party;
- reverse engineer, decompile, or disassemble software forming part of the Services except to the extent such restriction is prohibited by mandatory law;
- use automated means to access the Services in a manner that materially burdens, disrupts, or circumvents the normal operation of the Services; or
- use the Services or Content to compete with NOMOS through unauthorized copying, redistribution, resale, or exploitation of proprietary NOMOS material.

Nothing in this section prohibits lawful security research, interoperability, text-and-data-mining, or other activity to the extent a restriction would be unenforceable under mandatory applicable law.

5. USER SUBMISSIONS AND CONTRIBUTIONS

The Services may allow you to send us questions, messages, briefs, files, feedback, or other information (collectively, "Submissions"). Certain future features may also allow users to upload or make content available through the Services ("Contributions").

You retain ownership of intellectual property rights you hold in your Submissions and Contributions, except to the extent otherwise agreed in a separate written agreement.

By providing a Submission or Contribution, you represent that you have the right to provide it and that its provision and our permitted use of it will not unlawfully infringe the rights of another person.

You must not submit material that is unlawful, malicious, knowingly false or deceptive, or that you are not authorized to disclose.

Confidential client briefs, proprietary information, source material, or other information submitted in connection with a separate professional engagement will be handled in accordance with the applicable client agreement, confidentiality agreement, Privacy Policy, or other relevant written terms. Such information is not deemed non-confidential merely because it is transmitted through the Services.

6. CONTRIBUTION AND FEEDBACK LICENSE

To the extent necessary to operate the Services, you grant us a non-exclusive license to host, store, process, reproduce, and technically transmit Submissions and Contributions that you provide through the Services. This license is limited to operating, securing, supporting, and improving the Services and to performing our obligations to you.

If you voluntarily provide general ideas, suggestions, or feedback about the Services that are not confidential and are not provided as part of a paid engagement, you permit us to use that feedback without payment or attribution. This does not transfer ownership of confidential information, commissioned deliverables, or other material governed by a separate agreement.

7. SERVICES MANAGEMENT

We reserve the right, but not the obligation, to monitor the Services for violations of these Terms, investigate suspected misuse, restrict access where reasonably necessary, remove or disable unlawful or infringing material, protect the security and integrity of the Services, and take appropriate legal or technical action.

Where reasonably practicable, we will exercise these rights proportionately and in accordance with applicable law and any separate agreement governing an ongoing paid service.

8. TERM AND TERMINATION

These Terms remain in effect while you use the Services.

We may suspend or terminate access to the Services where reasonably necessary, including in response to a material breach of these Terms, unlawful activity, fraud, security risks, misuse of the Services, non-payment under an applicable agreement, or legal or regulatory requirements.

Where the Services are provided under a separate paid agreement, termination of that relationship will be governed primarily by that agreement. Nothing in these Terms gives us a right to disregard mandatory notice, refund, performance, or other obligations imposed by applicable law or a separate agreement.

Provisions that by their nature should survive termination, including provisions concerning intellectual property, confidentiality, disclaimers, liability, dispute resolution, and accrued rights, will survive to the extent applicable.

9. MODIFICATIONS AND INTERRUPTIONS

We may modify, update, suspend, or discontinue features of the Services from time to time. We do not guarantee that the public website or every feature will be available without interruption or error.

We may perform maintenance or experience technical, security, network, hosting, or third-party service interruptions. We will take reasonable steps appropriate to the nature of the Services to maintain their operation.

This section does not limit obligations expressly accepted by us in a separate service-level agreement, client contract, or other written agreement.

10. GOVERNING LAW

These Terms of Use shall be governed by and construed in accordance with the laws of Belgium.

Subject to any mandatory provisions of applicable law, you and NOMOS Intelligence agree that the competent courts of Brussels, Belgium shall have jurisdiction over disputes arising out of or in connection with these Terms of Use.

11. DISPUTE RESOLUTION

Informal negotiations

To expedite the resolution and reduce the cost of any dispute, controversy, or claim arising out of or relating to these Terms (a "Dispute"), the parties agree to first attempt in good faith to resolve the Dispute through informal negotiations.

Informal negotiations shall commence upon written notice from one party to the other and shall continue for at least thirty (30) days, unless urgent interim or protective relief is reasonably required.

Court proceedings

If the parties are unable to resolve the Dispute through informal negotiations, either party may submit the Dispute to the competent courts of Brussels, Belgium, subject to any mandatory provisions of applicable law.

Nothing in this section prevents either party from seeking urgent interim, protective, or injunctive relief where appropriate.

12. CORRECTIONS

The Services may contain typographical errors, inaccuracies, omissions, or outdated information. We may correct, update, or clarify such information at any time.

Where an error concerns a binding paid order or professional engagement, the rights and obligations of the parties will be determined by the applicable agreement and mandatory law rather than by this correction clause alone.

13. DISCLAIMER

THE PUBLIC WEBSITE AND GENERAL INFORMATION MADE AVAILABLE THROUGH THE SERVICES ARE PROVIDED ON AN 'AS IS' AND 'AS AVAILABLE' BASIS TO THE FULLEST EXTENT PERMITTED BY LAW.

NOMOS provides research and intelligence-related information that may rely on public sources, third-party sources, analyst judgment, incomplete information, rapidly changing events, and assessments made at a particular point in time. Information, probabilities, judgments, forecasts, and analytical conclusions are inherently subject to uncertainty and may later prove incomplete or inaccurate.

Unless expressly stated in a separate written agreement, Content made available through the public Services does not constitute legal, financial, investment, tax, medical, or other regulated professional

advice, and it does not constitute a guarantee of any event, outcome, commercial result, or future development.

Users remain responsible for evaluating information obtained through the Services and for decisions made on the basis of that information. Specific standards applicable to commissioned reports or paid professional services may be set out in the relevant client agreement or statement of work.

Nothing in these Terms excludes any warranty, duty, or liability that cannot lawfully be excluded or limited.

14. LIMITATIONS OF LIABILITY

To the fullest extent permitted by applicable law, NOMOS Intelligence and the persons operating it will not be liable for indirect, incidental, special, or consequential loss arising solely from use of the public Services, including loss of profit, revenue, opportunity, or data, where such loss was not a reasonably foreseeable consequence of our breach.

For the avoidance of doubt, liability relating to commissioned research, paid intelligence services, consulting, or other professional engagements may be subject to separate liability provisions in the applicable client agreement.

Nothing in these Terms excludes or limits liability to the extent that such exclusion or limitation is prohibited by mandatory law, including liability arising from fraud or intentional misconduct where it cannot lawfully be excluded.

Any exclusion or limitation in these Terms shall be interpreted only to the extent necessary to remain lawful and enforceable.

15. INDEMNIFICATION

To the extent permitted by law, you agree to indemnify NOMOS Intelligence and the persons operating it against reasonable losses, liabilities, and third-party claims resulting directly from your material breach of these Terms, your unlawful use of the Services, or your infringement of a third party's intellectual property, confidentiality, privacy, or other rights.

This obligation does not apply to the extent that a loss or claim was caused by NOMOS's own breach, fault, or unlawful conduct. We will provide reasonable notice of a third-party claim for which indemnification is sought and will not unreasonably prejudice your ability to participate in its defence.

16. USER DATA AND PRIVACY

We process personal data in accordance with applicable data-protection law, including the General Data Protection Regulation (GDPR), where applicable.

Our collection and use of personal data, including the purposes of processing, legal bases, categories of recipients, retention information, international transfers where applicable, and data-subject rights, are described in our Privacy Policy. The Privacy Policy should be read separately from these Terms of Use.

You are responsible for ensuring that personal data or other information you provide to us has been collected and disclosed lawfully and that you have any permissions required to provide it.

Security and backup arrangements applicable to paid services, confidential client material, or analyst work may also be governed by separate agreements.

Privacy Policy: [INSERT PRIVACY POLICY URL BEFORE PUBLICATION]

17. ELECTRONIC COMMUNICATIONS AND SIGNATURES

Visiting the Services, sending us emails, and completing online forms constitute electronic communications. To the extent permitted by applicable law, you agree that notices and communications may be provided electronically.

Electronic signatures, electronic contracts, and electronic records may be used where legally valid and appropriate. Nothing in these Terms waives a legal formality, signature requirement, durable-medium requirement, or other mandatory requirement that cannot lawfully be waived.

18. MISCELLANEOUS

These Terms of Use, together with policies expressly incorporated by reference, constitute the agreement between you and us concerning general access to and use of the Services. A separate client, analyst, contractor, confidentiality, order, or service agreement prevails over these Terms with respect to the matters it specifically governs.

Our failure to exercise or enforce a right does not constitute a waiver of that right.

If any provision of these Terms is held to be unlawful, invalid, or unenforceable, that provision shall be limited or severed to the minimum extent necessary, and the remaining provisions shall remain in effect.

We may not assign our obligations under an ongoing paid agreement in a manner prohibited by that agreement or by mandatory law. Subject to that limitation, rights and obligations relating solely to the operation of the Services may be transferred as part of a lawful reorganisation, merger, acquisition, or transfer of the relevant business.

Neither these Terms nor use of the Services creates an employment, agency, joint venture, partnership, fiduciary, or franchise relationship between you and NOMOS.

Independent analysts, freelancers, or contractors who provide services to NOMOS are governed by their applicable analyst or contractor agreements and are not made employees, agents, or partners merely by accessing the Services. Their legal status depends on the applicable agreement and the actual circumstances of the relationship.

19. CONTACT US

To resolve a complaint, ask a question about these Terms, or obtain further information about the Services, please contact:

NOMOS Intelligence

Status: Pre-incorporation project operated by its founding team in Belgium

Email: contact@nomos-intel.eu

Registered office: To be added following incorporation.

Enterprise number (BCE/KBO): To be added following incorporation.

VAT number: To be added following incorporation, if applicable.

Drafting note (remove after incorporation): After incorporation, replace the pre-incorporation identification with the exact registered legal name, registered office, BCE/KBO number, VAT number (if applicable), and any other mandatory company information. Review this document together with the final Privacy Policy, client terms, analyst/freelancer agreement, and actual platform functionality.
